DAHLONEGA, 1856 (CONT.)

Mint of the United States.

Philadelphia, July 21, 1856.

Dear Sir,

Col Snowden returned from Wilkesbarre on Saturday & reports Boyd's Title all right. As the Col goes to Washington to morrow & will see you while then you will have an opportunity of hearing of his examination &c in Luzerne

To
Jno. L. Parry Esq
Pittsburgh
Pa.

Draft presented. Payment declined. Reasons therefor.

July 23, 1856.

23d July 6.

Sir.

Your draft on me for $116.90, was presented this morning, and I regret to say that I had to decline paying it on account of our ordinary fund being exhausted.

The Rolls made by you in March last (on my order) were for the Branch Mint Dahlonega, against which you will please make out your bills (in duplicate) for the same, and transmit it to me. It will be paid on presentation, or you may draw on me for the amount a day or two after you have transmitted the receipted bills.

Payment cannot be made for the rolls made recently by you for this Mint, until after Congress passes the appropriation bills. In the meantime, however, you may send me receipted duplicate bills for the same, and I will pay the amount due as soon as the Mint receives any funds.

I am very respectfully,
James Ross Snowden
Director U.S. Mint
Per H.R. Linderman

James Ross Snowden Esqr

Sir

Yours of 23rd July was duly recd. and I am sorry that I put you to so much trouble as I would not have drawn on you if I knew that you were not prepared to meet the draft. I took it you would have the less trouble to pay the whole amt at once — you have enclosed forms of Receipts for me to sign and send on and instructs me to draw on you for amt of Bill March 27/56 for Branch Mint at Ga, In compliance find enclosed a receipt for amt of the same $56.73/100 and I will draw on you in a few days for the same and when Congress makes appropriation I will send you a receipt in form for amt of Bill of July 11/56 being $60.90/100 in the mean time you have had an opportunity to test my Chill Rolls and if you should need any more please order and I will attend to see that they will be promptly attended to

With respect

John C Parry

respt. leave of absence
to Mr Field Comer

9th Sept. 1856.

Sept. 9. 6.

Sir.

I transmit herewith a communication from the Superintendent of the Branch Mint, Dahlonega, stating that he has granted leave of absence for a few weeks to John D. Field Jr Coiner of that Branch Mint, and appointed Feldred H. Mason a workman thereof to act in his place during his absence.

I have the honor to be,
With great respect,
Your faithful Servant.
James Ross Snowden
Director of the Mint.

Hon James Guthrie,
Sec. of the Treasury,
Washington City.

U. S. Branch Mint
Dahlonega Ga.
11th Sept. 1858.

Sir —

Your favor of the 5th Inst. has been received. I enclose an estimate of expenses for the year ending 30 June 1858 as requested. Some repairs will have to be made before long to the mint building & also to the out buildings; hence the amount for incidental expenses is larger than would otherwise be required.

In answer to your inquiry in reference to the 4 barrels of sweeps returned for 1854 & recently sold by you, I have to state, that at the close of the year 1854, The Melter & Refiner having returned all the bullion in his hands, had a balance against him in his a/c for silver of $196.88 after making him the legal allowance for wastage — that he afterwards returned the sweeps accumulated in the year 1854, & I credited his a/c for silver that amount

that is $196.88 & charged the same to Profit & Loss acct intending when the Proceeds were received to credit Profit & Loss therewith & charge myself in gold Coinage acct.

Very Respectfully
Your Obt. Servt.

J. M. Patton
Supdt.

James Ross Snowden Esqr
Director of Mint
Philadelphia

From & To
Supt Br Mint
Dahlonga

Disposition of
Proceeds of Sheeps
1854

Sept. 19, 1856.

September 19. 6

Sir,

I have to acknowledge your favor of the 11th inst. with the enclosure stated.

With respect to the disposition of the proceeds of your Sweeps for 1854 I shall be glad if the course indicated by you can be carried into effect. But some time having elapsed since Profit & Loss account was charged with the amount credited to the Malter & Refiner and all your accounts for that year having probably been closed, the question arises can this be done without creating some confusion in your accounts.

In connection with this subject I beg leave to call your attention to a copy of a letter of the First Comptroller to the Secretary of the Treasury enclosed in my letter to you of the 5th February 1855 respecting the disposition of the proceeds of

the Sweeps which had accumulated at Your branch prior to 1854. The ruling of the Department in that case would seem to require a similar disposition of the proceeds in question.

Very respectfully,
Your Obt Servt.
Lewis R. J. Snowden
Director of the Mint

L. M. Patton Esq
Supt. Br. Mint
Dahlonega
Ga.

U. S. Branch Mint
Dahlonega Ga. 5th Oct. 1856

Sir —

I have the honor to forward a report for the month of September & package No. 9 of Reserved Coins with a statement of its contents — & also the necessary reports for the Secretary of the Treasury.

In reference to the proceeds of the 4 barrels of sweeps, I had supposed that the disposition thereof might be different from those of the sales made in 1854, as the last were credited to the M & Refiner, & those sold in 1854 never had been. I shall be perfectly content with whatever direction may be given to this fund by you as the Officers of the Treasury Department.

Very Respectfully
Your obt Servt

Oct 16, 1886.

October 16, 6.

Sir,

The Sweeps of the Branch Mint Dahlonega for the Year 1854 were (under my instructions) in the Summer of 1855 sent to this Mint to be disposed of. The dismantled condition of our Melting Furnaces prevented for several months an assay of the Sweeps, and in consequence thereof they were only recently sold. In the meantime, the Bullion and Ordinary accounts of that institution for the Year 1854, have all been closed, and I have under the ruling of the Department in a similar case (viz: the disposition of the proceeds of the Sweeps which had accumulated at that Branch prior to 1854,) paid the proceeds (viz $360) of the Sweeps refined to into the Treasury of the U. States, and enclose herewith the receipt of the Asst. Treasurer U. S. therefor.

I have the honor to be,

With great respect,

Your faithful Servant,

James Pollock

Transmit
January report from
Br. Mint Dahlonega

Feb. 11, 1857

To, Sec Treasury

Transmitting Certificate of Assay Commissioners as to irregularity in Weight of Coins of Br Mint Dahlonega.

Feb 12, 1857

Mint of the United States:
Philadelphia, February 12th 1857.

Sir:

In transmitting the enclosed Communication as required by the Board of Assay Commissioners, it may be proper to State, for the information of the President and of the Department, that the value of the errors in the weight of the coins therein referred to, are as follows:

1 Half Eagle	2/10	of a grain	above the legal weight	= .72	of a cent
1 do.	2/10	"	below " "	= .72	" "
1 Gold dollar	1/10	"	above " "	= .24	" "
1 do.	1/10	"	below " "	= .24	" "

It will be seen that the variance is as much above as below the legal standard; and that the two pieces of each denomination, if weighed together, would be correct in weight, and in like manner the four pieces produce a similar result. But as the trial exhibited an irregular adjustment of the individual pieces, the fact is certified by the Board for the decision of the President.

I have the honor to be,
With great respect,
Your faithful Servant:
James Ross Snowden.
Director of Mint.

Hon: James Guthrie,
Secretary of the Treasury,
Washington City.

Mint of the United States.
Philadelphia, February 12th, 1857.

Sir:

The Commissioners appointed for the purpose of making the annual trial of the gold and silver coins received at the Mint of the United States and its branches under the provisions of the Act of the 18th Jan, 1837, met at the Mint on Monday, the 9th of February, 1857.

The following Commissioners were present, namely, the Hon. John K. Kane, Judge of the District Court of the United States for the Eastern District of Penn.a and Charles Brown, Esq.r, Collector of the Port of Philadelphia, they being Commissioners ex officio; and Dr. A.A. Hayes, of Boston, Hon. John K. Findley, of Philada., Maj. A.M. Bowman, U.S. Army, and Prof. Socrates Mauffin, of Virginia, Commissioners Specially designated by the President of the U.S. The Commissioners absent were James C. Vandyke, Esq. Attorney of the U.S. for the Eastern District of Penna., a Commissioner ex officio, and Prof. W. Jones, of New-York, a Commissioner Specially designated.

A quorum being present the Commission proceeded to the discharge of the duties assigned them; and having completed the tests and trials required by law, the following resolution was unanimously adopted, viz:

"That the examination of the gold and silver Coins of the Mint and the branches for the year 1856, is in their judgment sufficient and the results highly satisfactory, except as to the branch Mint Dahlonega, the Coins of which are above and fall below the limits allowed by law as appears in the report of the Committee on weighings, as follows: one half eagle 2/10 of a grain below the deviation allowed by law, one half eagle 2/10 of a grain above the same deviation, one gold dollar 2/10 of a grain below the deviation allowed by law, the other 1/10 above the same deviation: the Commissioners recommend, therefore, that these facts be certified to the President of the United States in compliance

with the 32nd Section of the Act of 18 January, 1887."

The record embracing the foregoing resolution is signed by all the Commissioners present, and the same is hereby certified to the Presi[dent] of the United States in accordance with their direction.

I have the honor to be, Sir
With great respect
Your faithful Servant.
James Rapp Snowden.
Director
Mint

To the
President of the United States.

FEB.—1857.

Mint of the United States.
Philadelphia, February 6th, 1857.

Sir:

The trial of the coins returned at your branch of the Mint during the year 1856, for the Annual Assay, by the Board of Assay Commissioners which convened here on the 6th. inst., exhibited the following results.

Coins of branch Mint at Dahlonega, Georgia.

Registered value of Coins.	Legal weight.	Actual weight by trial.	Inaccuracy by test.
$ 233.00	Ozs. 12.523	Ozs. 12.540	999.6

Results of weighing five half eagles and three gold one dollar pieces of same branch.

	Legal weight	Actual weight of 1st piece	2d piece	3d piece	4th piece	5th piece
Half Eagles	129.	128 5/16	128 6/16	129	129	128 9/16
Gold dollars	25 12/16	25 9/16	25 5/16	25 8/16		

The report from which the above table is taken goes on to state that the Committee then re-weighed all the selected coins, and "the trial not only confirmed the excessive variation, but further developed a half eagle 1/16 of a grain above the standard weight and 2/16 above the variation allowed by law." The Committee then proceeded to test the results of their former weighings by different scales, and with a confirmatory result, and an examination of the weights used showing them to be correct, the Committee adopted the following resolution:

"That the examination of the gold and silver coins of the Mint and the branches for the year 1856, is in their judgement sufficient and the results highly satisfactory, except as to the branch Mint Dahlonega, the coins of which are above and fall below the limits allowed by law, as appears in the report of the committee on weighings, as follows: one half eagle 2/16 of a grain below the deviation allowed by law; one half eagle 3/16 of a grain above the same deviation; one gold dollar 1/16 of a grain below the deviation allowed by law, the other 1/16 above the same deviation: the Commissioners recommend, therefore, that the

facts be certified to the President of the United States in compliance with the 22nd Section of the Act of 18 January, 1837."

The record embracing the foregoing resolution is signed by all the Commissioners present, and the same was certified to the President of the United States in accordance with their direction.

In transmitting the record as required by the Board of Assay Commissioners through the Secretary of the Treasury, I said, "it may be proper to state, for the information of the President and of the Department, that the values of the errors in the weight of the coins therein referred to, are as follows:"

"1 Half Eagle 3/16 of a grain above the legal weight — .72 of a cent
1 do 3/16 " below " " — .72 " "
1 Gold Dollar 1/16 " above " " — .24 " "
1 do 1/16 " below " " — .24 " "

"It will be seen that the variance is as much above as below the legal standard; and that the two pieces of each denomination, if weighed together would be correct in weight and in like manner the four pieces produce a similar result. But as the trial exhibited an irregular adjustment of the individual pieces, the fact is certified by the Board for the decision of the President."

In reply to this communication, the Secretary of the Treasury, writes me as follows:

"You will be pleased to require an explanation to be given by the Superintendent of the branch Mint as to the causes of the irregularity in the weights referred to, that it may be laid before the President."

The following is the weight in grains of all the coins reserved at your branch during 1856.

Half Eagles 128 12/16 129 2/16 129 2/16 128 14/16 129 129 1/16 129 3/16 129. 129. 128 8/16
Gold Dollars 26 9/16 25 8/16 25 15/16

I have written to you thus fully in order that you and the Cashier of your Institution may be advised of all the facts elicited by the trial of the reserved coin of your branch for 1856, and the correspondence had upon the subject of the irregu

rities detected in the weights of them, and I have to request that such explana
ns as it may be possible to give in relation to the subject, may be forwarded
you at your early convenience.

I am, Yours respectfully,

James Ross Snowden.

James Ross Snowden Esqr,
Director of Mint,
Philadelphia Pa.

March 9. 1857

To Sec. Treasury

Enclosing communication from Supt Br Mint Dahlonega explanatory of deviation in weight of assay coins for 1856.

March 4 (83).

March 4th 37.

Sir,

As requested in your favor of the 16th ultimo I asked for an explanation from the Superintendent of the branch Mint at Dahlonega respecting the irregular adjustment of some of the Coins struck at that institution. I have, to-day, received a reply to my inquiries on the subject; which I enclose for the consideration of the Department and of the President.

The maintenance of the standard fineness and weight of the Coins of the United States is of the highest importance not only as regards our own Country but our reputation abroad. Hence the necessity of extreme care in all the Operations connected with the Coinage. Such as the limit of deviation in the weight of the Gold Coins is but the one quarter of a grain, each piece is separately adjusted. It appears, from the letter of the

Superintendent that the adjustments were made by an experienced workman, who has been similarly employed even since the organization of that branch of the Mint in 1838. It is proper I should state that heretofore the coinage of that branch has been well performed, and the fineness and weight satisfactory.

The Coinage the last year amounted to the sum of $102,575: and it appears that the actual variation below the legal weight on this entire amount is but 103 grains, which is much within the limit allowed by law, and confirms the point stated in my letter of the 12th ult: that the aggregate weighings were accurate; and that each delivery of Coin by the Coiner to the Treasurer was satisfactory as to weight. but that some of the individual pieces were slightly above and below the legal allowance.

These considerations seem to lead to the conclusion that the errors in the pieces in

question was an accidental one, and is due to a want of proper care, and not to a want of honesty or skill; and that doubtless the officers of that institution will take measures to avoid such discrepancies hereafter.

I have the honor to be,
with great respect,
your faithful servant,

James Ross Snowden,
Director of the Mint.

U. S. Branch Mint
Dahlonega, Ga. Feb. 24, 1857.

Sir:

I received to day Your letter informing me of the unsatisfactory result of the test of the assay pieces of this Branch Mint for the year 1856, and asking for an explanation of the irregularities in the weight of some of the pieces reserved, to be Submitted by the Treasury Department to the President.

I was never more surprised in my life; as the pieces heretofore reserved at this Branch have proven upon the test to have been so accurately adjusted.

The hand who adjusted the coins last year, is the same one, who has performed that Service since the organization of this Branch in 1838. He seems to be very Skilful, and the correctness of his adjustments heretofore, shews that he is entitled to be so considered.

From this consideration and the fact that the coins when returned in bulk by the Coiner were so clearly within the limits allowed by law, it was not, at any time during the year, deemed necessary to require the coins of any delivery to be weighed separately, as is provided for in the 26th Sect. of the Mint Laws — when the weighing in bulk shall not

prove satisfactory to the Treasurer.

I have prepared a Statement to accompany this letter, of the several deliveries of coins made by the coiner during the last Year; from which it will be seen that the coins when returned in bulk to me were always clearly within the limits allowed by law.

If I had supposed, or had had any reason to suppose, that each individual piece was not adjusted accurately and in the manner required by law, I should most certainly have weighed each piece separately, or caused it to be done; but for the reasons above stated it was deemed wholly unnecessary.

The hand who performed the adjusting must have become careless or made a mistake in his weights.

The above is all the explanation it is in my power to give as to the irregularity in weight of the pieces refered to.

Let me ask You to be so kind as to call the attention of the Secretary of the Treasury & the President to the very satisfactory tests heretofore made of the coins of this Branch Mint.

Very respectfully
Your Obt Srvt.

Sir—

Enclosed you will find Report for the month of August—& Statement for the Secretary of the Treasury.

In consequence of not having received the acid ordered in the latter part of June, & which was on board a vessel at Philadelphia on the 8th of July, we were unable to make a coinage in the last month; as we had used up in July the acid on hand.

This last lot of acid has met with very unusual detention.

Very respectfully
Yr. obt. Servt.

J. M. Patton Esq.
Supt Br. Mint
Dahlonega
Ga.

Phila. Sept. 21st '57

Dr. Sir:

In reply to a note addressed to Prof. Booth a few days ago requesting him to state the items on the authority of which, the cost of bullion required for Mem. No. 1 is estimated at four or five thousand dollars, he requests me (in his note just received) to apply to you for the particulars of the calculation.

May I therefore trouble you to furnish the desired estimate at your earliest convenience? — for at that rate of charging, I fear the present appropriation will be totally inadequate to the demands of the case; and hence it becomes necessary greatly to reduce the amount of experimenting contemplated.

Very Respectfully &c
J. T. Barclay

U. S. Branch Mint
Dahlonega Ga. 20th Oct. 1857

Sir —

On the 3rd of August last I requested Crucibly, black lead Pots & 2 boxes Cupels for this Branch.

The crucibly & the pots have been received, but I have not heard anything of the cupels — they may have been overlooked.

The last lot of acid was so long on the way, (nearly two months,) that I think it best to procure some more before winter sets in. The last acid received is pronounced by the workmen to be the most impure we have ever had; — and I noticed that the stoppers of several of the carboys had not been made sufficiently secure.

Last year I ordered some filtering Paper & received a quantity so marked — but it ought to have been marked what it was, blotting Paper

for it cannot, I am satisfied, be used for filtering.

We made a substitute in the refining of fine Sea Island Sterling & found that it answered the purpose finely — but the Assayer says he cannot prepare his fine gold without the filtering Papers.

I enclose a Specimen of some we had & have to request that you will cause some like it to be forwarded if it can be found.

Below find a list of articles now wanted, & you will please cause the receipts for these and some other purchases recently made to be forwarded so that I may include them in my account at the close of the year.

Very Respectfully
Your obt. Servt.

Dahlonega

In relation to inferior Quality of acids sent to that Branch & ordering certain articles

Oct 28. 1857

Oct 28. 7.

Sir.

I have to acknowledge the receipt of your favr of the 20th ult.o inst.

I regret to learn that your last lot of acid proved to be of an inferior quality. It was shipped by Mr Phillips, who supplies the Mint and its Branches with acids under contract, and whom we have always found a careful and reliable man. His attention was called to the subject on the receipt of your letter, but he was unable to offer any explanation of the difficulty. I would be glad if you would state in what particular the acid was defective. He has been requested to observe the utmost caution in

in Shipping the 12 carboys ordered in Your last letter.

The cupels ordered some times since are nearly ready for shipment.

The Copper requested has been Shipped.

Some care will be taken to have the balance of the articles ordered of the best quality.—

As soon as the articles ordered are all Shipped the bills for the same will be transmitted to You.

Very Respectfully,
H. R. Linderman
for the Director of the Mint

Lt. L. Patton Esq
Supt Br. Mint,
Dahlonega

U. S. Branch Mint
Dahlonega Ga. 9th Nov. 1857.

Sir –

I have the honor to forward report for the month of October & Package No. 10 of received Coins, with a statement of its contents & also monthly statement for the Secretary of the Treasury.

This communication has been delayed by the absence, (without leave,) of the Assayer, Isaac L. Todd Esqr –

He left this place on the 23rd of October & did not return until the 3rd Inst.

In answer to the inquiry in Mr. Linder-man's letter of the 28th of October, desiring to know "in what particular the last lot of acid was defective", I have to state that it appeared to contain a considerable portion of Muriatic acid – & required

a throwing down by the use of nitrate of silver before it could be used.

Very Respectfully

Dear Sir,

I am anxious to oblige Dr. Barclay, but you are apt in supposing that [redacted] a working die cannot go out of your legal possession except to the Chief Coiner on his requisition to the Director. You may however loan the quarter dollar heads die to Dr. Barclay as requested by him, but it must in the mean time be regarded as in your legal Custody.

You may make such arrangements as you may deem best to carry this into effect.

Your Respectfully

November 1857

U. S. Branch Mint
Dahlonega Ga 5th Dec. 1857

James Pollock Snowden Esqr
Director of Mint
Philadelphia

Sir —

Yours of the 16th November has been received. The balance due this Branch according to the account forwarded agrees with my account.

There is one item, August 14 — A. Potter & Co. for Pig lead $10.50 — that I do not understand. We have not ordered or received any Pig lead — it may have been procured for making the assay leads which were forwarded in January — but it was furnished in August & the assay leads in January — & this induces me to think that this item should probably be charged to some other Branch.

We have not yet received the Cupels that were shipped from New York 6th Nov. & about a week before the expiration of the last month, the Assayer used the last one he had, and in consequence

of the want of capels, I have not been able to forward you a report for the last month.

I have written to our forwarding agent at Charleston, but have not received any notification from him that the capels had reached that place. — I hope however that we will receive them in a few days.

Very respectfully
Your obt. Servt,

Sir—

In the Pamphlet of Instructions recently received, & particularly in Section 13 & 16 of Page 9— 8 & 10 of Page 13— & 1, 2 & 3 of Page 15, the Superintendent is required to give his warrant. As heretofore there have not been any warrants used at this branch, you will please send me a form of each kind in use at the Mint, that I may make mine to correspond.

From the regulation on Page 13— Sect. 8— it appears that it is the intention that receipts shall pass between the Treasurer Coiner & Melter & Refiner only quarterly. Heretofore the practice has been for these officers to pass receipts monthly. The M & R would receipt the Treasurer for the bullion delivered to him to be prepared for coinage— & the Treasurer would receipt the M & R for ingots & clips returned. And in the same way the Coiner & Treasurer receipted each other. These receipts constituted the basis of the Treasurer's Journal entries & were forwarded with the Ofs at the close of the quarter. Is my construction correct?

The direction on Page 9— / in reference to the coinage and parting charges / is that these charges must be placed quarterly to the credit of the Treasurer of the U.S. I suppose this will be done by transferring quarterly these balances to the U.S. Bullion Ap. My reason for making this inquiry is that sometime since, when I made a transfer in this way, the Treasurer of the U.S. informed me that I should not have made the transfer to that Ap, until a transfer warrant had been issued by the

Treasury Department.

I enclose a requisition of the Coiner for a pair of new rolls. The last pair obtained, made at Pittsburg, are pronounced by the Machinist to be very hard and excellent rolls - but he says they were not made true on the face - & that he cannot grind them true on the Lathe here - which was bought many years since, and seems to be a very imperfect Machine.

The strips, when rolled out, have to be past through the draw-bench some many times, & even then they are not regular and of uniform thickness.

The consequence is that there is much more difficulty in adjusting the pieces, than there should be. For the last year I have used extra precaution to see that the coins are within the legal limits. Upon a delivery of coin, I have selected every tenth piece, which I have weighed myself - & if a piece was found to be out of limits, I have required the whole to be re-weighed.

You will please send me a new grain weights & its subdivisions, as the ones we have, have been in use for a long time & may have worn a little.

Very respectfully
Your obt. Servt.

J. M. Patton

Sheet of plum
10 cm rolls. -1-

March 24, 8.

Sir.

I have to acknowledge the receipt of your favor of the 15th inst.

The rolls made at Pittsburg having in several instances proven inaccurate I have ordered those requested by you to be manufactured at Waterbury, Connecticut.

The grain weight and its subdivisions requested will be forwarded to you as soon as they can be made and adjusted.

Section 8. (page 13) of the "Instructions" lately issued prescribes that the various deliveries of bullion, ingots, clippings and coins, made during the quarter, should be summed up at the close thereof, and a warrant made for the same, as if the various daily deliveries of each kind constituted one delivery at the end of the quarter. The receipt of the Officer for the bullion received during the quarter is taken on the back of

the warrant. It appears from your letter that the practise at your Branch of the Mint is to issue the deliveries of bullion at the end of each month. There is no objection to this course and you may continue it if you think proper, but you will probably find it more convenient to adopt the course pursued at this Mint.

Enclosed I send you forms of warrants covering the items which form the basis of the Treasurer's Bullion accounts. I also send form of warrant for payment of bills for Incidental and Contingent expenses.

With respect to the Coinage and parting charges I have to remark that the same will be credited as heretofore, namely, the former to "Bullion Deposit Profit and Loss", and the latter to "Profit and Loss".

The balance to the credit of "Bullion Deposit Profit and Loss", must in compliance with the act of March 4, 1853, be paid annually into the Treasury of the United States.

It is required that the balance to the credit of "Profit and Loss", shall from time to time be paid into the Treasury of the United States to the credit of

your appropriation for ordinary expenses [redacted] the amount thus transferred, will be subject to your requisitions when required for the support of your institution. In preparing the regulation on this subject it was thought that the most convenient mode to effect this transfer, would be to place the same to the credit of the Treasurer of the U. States, but on a further consideration of the subject I am of opinion that the most feasible plan will be to deposit the amount with the Assist. Treasurer of the U. States at Charleston S.C., taking duplicate receipts therefor, one of which You will enclose to me, that I may apprise the Department of the transfer. You will use Your discretion as to how often this transfer shall be made - it may be made quarterly, half-yearly or annually.

You will please understand that the deductions from depositors will not be available for the ordinary expenses of Your Branch Mint, until they are paid in the manner above stated, into the Treasury of the U. States.

I may add that the regulation requiring the deductions from depositors to be paid into the Treasury of the U. States, was prescribed at the

suggestion of the Secretary of the Treasury, in order that the appropriations from all sources might appear on the books of the Department.

Very Respectfully,
James Ross Snowden,
Director of the Mint.

Order for rolls
Br Mrs Dahlenga.

Mar. 22. 1888.

March 22. 8

Gentlemen:

I have to request that you will manufacture for the Branch Mint at Dahlonega, one pair of chilled iron rolls of the dimentions specified in the enclosed drawing. As much inconvenience has been experienced in the use of rolls of this kind from their being irregular and out of bearing, You will please cause them now ordered to be accurately made and of the very best material. When finished, You will ship them to me, that I may have them examined previous to their being sent to the Branch Mint.

Very Respectfully,

James Pollock

Director of the Mint.

Messrs Blake & Johnson,

Waterbury March 23d 1868

Col Jas Ross Snowden
Director of Mint of U.S.

Dear Sir

Your letter of yesterday containing drawing and order for one pair of chilled Iron Rolls is just recieved. We will execute the order immediately, and ship them as directed with as little delay as possible. We notice in the drawing that there is no corner left between the journals and the face of the rolls, thinking this an oversight in the person who made the drawing, we would be pleased if you would write us whether we shall leave a small corner in them, similar to the steel rolls we sent you a few days ago. — The rolls will be much less likely to break

Consigned to Mint of the U States

For the Naugatuck Rail Road Company,

W Waterbury for B Soule
Ap

Waterbury Conn April 15th 1858

Col Jas Ross Snowden
Director of Mint of U.S.

Dear Sir

We send you this day by Rail Road, one pair Chilled Iron rolls as per your letter and draft of March 22d. We have packed them carefully and secured the cover to the box with screws, so that you can have them opened for examination without difficulty. We have only coated them with sweet oil for the same reason, and if you should send by any route whereby they would be likely to get damp we would advise some additional coating on the face of the rolls. The rolls are perfectly true and very hard. They are also made to the drawing as near as possible without gagues for the diameters of bearings. We have now made gagues for these rolls and shall be able to make more exactly the same. We should be pleased to make a pair of Casted Rolls of the same dimentions, and would warrant them hard and perfect in every respect, for the sum of Eight hundred dollars ($800.00)

The only defect in the rolls now sent, is what is called a pin hole, which is in the face of one of the rolls, but it is so very small we think cannot injure it. If it does we will replace it without cost to the Mint

Yours Very truly Blake & Johnson

James Rob Snowden.
Director of the Mint

J. M. Patton Esq.
Supt Br. Mint,
Dahlonega

U. S. Branch Mint
Dahlonega Ga. 18th June 1858

Sir—

By the appropriation act lately published, I notice that the amount appropriated for this Establishment is $6.500— less by the sum of $4.380 than the Estimate submitted.

There is a considerable balance of the funds heretofore appropriated for incidental and contingent expenses undrawn, & I suppose the intention is that the Secretary of the Treasury will from this undrawn balance supply any deficiency of the present appropriation. A few days since I received my blank warrants— (having been compelled to get them printed in Augusta)

It seems to me that in the use of warrants, it will be necessary to make a change in the receipt which is given to the depositor when he makes a deposit — or rather in the receipts taken from him, when the deposit is paid to him. I send you the form of receipt I found in use

here, which I suppose has been used from the beginning.

When making up my report to the Department at the close of the quarter the last receipt (or order rather) is detached at the red line & placed on file here, the other portion is sent to us the Treasurer's vouchers.

My inquiry is this - Is it necessary in addition to this receipt, to take the depositor's receipt on the warrant also?

Very respectfully
Your ob't Servt,

J. M. Patton
Supt.

James Ross Snowden Esqr
Director of Mint
Philadelphia
Pa.

June 25, 8.

Sir:

Your letter of 18th inst. has been received. In reference to the difference between the amounts estimated and appropriated for your branch, I have to state that the balances of appropriations heretofore made and undrawn, were deducted from the amounts estimated as required for the next fiscal year. When required, therefore, you will draw upon the Department as if the usual sums had been appropriated for your institution.

The forms of receipts in use at your branch and copies of which you enclosed in your letter, are not such as are in use at the Mint or the other branches. Herewith I send you forms of Warrant for payment of Gold deposits and of receipts to & from the depositor which have been adopted at the Mint. Your institution will hereafter conform to them.

I am, very respectfully &c.

James Ross Snowden.

Forwarding adjusting
balance of Weight

Dec 26, 1838.—

Mint of the United States,

Philadelphia, July 23, 1855.

The Director of the Mint gives notice, in pursuance of an authorization from the Secretary of the Treasury, and in consequence of the present accumulation of silver coin at the Mint, that from and after the first day of August next, and until further notice, the purchases of Silver for coinage will be paid for in Silver coins only, and not in Gold.

The Silver offered for purchase will be weighed, melted and assayed, as usual, and the standard weight determined therefrom, in ounces troy, to the hundreth part of the ounce; and will be paid for (as at present) at the rate of one dollar twenty-two and a-half cents per standard ounce. The receipt given at the first weighing must be presented by the seller or his order, and usually payment may be expected on the day following the date of receipt, or the second day following.

For the information of bullion dealers, country banks, &c., it may be stated, that according to the above rate of purchase, the yield of various classes of coin or bullion will be about as follows:

Five-franc pieces,	99 cents each.
Mexican and South American dollars,	106¼ "
Old Spanish dollars,	105 "
Revolutionary or "hammered" dollars, (often mistaken for the true Spanish dollar,)	101 "
Half-dollars of the U. S. coined before 1837,	52¼ "
The same since 1837 to the last change of standard in 1853,	52½ "
Spanish quarters,	23½ "
" eighths,	10 9-10 "
" sixteenths,	5⅛ "
Mexican quarters,	25 4-10 "

Quarter dollars are proportionally less productive of premium, while dimes and half-dimes, coined before 1837, have lost rather more by wear, on an average, than the premium would make up; those coined since 1837 to 1853, will average a premium of 3½ per cent. on their nominal value.

German, Swedish, Danish and Norwegian crowns,	111 cents each.
Old French crowns	114 "
German florins,	41½ "
Prussian and Hanoverian thalers	72 "

Fine silver 136 cents per ounce.

American plate, best manufacture, 120 to 122 cents per ounce.

Genuine British plate, 125 cents per ounce.

At San Francisco the purchases may be paid for in *Gold* or *Silver*, at the option of the Superintendent thereat, until a sufficient supply of silver bullion is received to meet the public demand for silver coin at that Institution.

JAMES ROSS SNOWDEN,
Director of the Mint.

Dec. 16th 8.

Sir,

In consequence of a conversation I had with Mr Mason of your Branch Mint I have deemed it proper to send you an adjusting balance and set of weights. The latter have been most carefully adjusted by and compared with our standards it might be well to keep them as standards for those in daily use.

I send the balance and weights to you by Express with directions to carry them carefully, and I hope they will reach in good order.

I am, very Respectfully
Your Ob! Servant,
James Ross Snowden.
Director of the Mint.

DAHLONEGA, 1859

Branch Mint of the U.S.
Dahlonega Ga. 6th Jany. 1859.

Sir—

I have the honor to forward my report for the month of December & Package No 12 of reserved coins & also the required statements for the Secretary of the Treasury.

I have not yet received the box of dies for the present year or the adjusting scale you forwarded sometime since. I have been notified of the arrival of the box of dies at the Express office in Athens — & of the scales at Marietta:— I am looking for both boxes daily. The gross amount of bullion received for the year just closed, is smaller than for any previous year: but the amount of Georgia gold received is greater than has been deposited in any one year since 1852. This fact shews that the mining interests of this section are reviving. Much preparation is now making for mining during the coming year, and I think it probable that the yield of gold from the Georgia mines, will go beyond

what it has ever been, when the works now on hand are completed & put into operation.

The hydraulic system of washing is being introduced into our mines; and it is the opinion of practical and experienced miners among us, almost invariably, that this mode of washing will give astonishing results.

All things considered the prospect for increased business at this Branch Mint, is better than it has been for eight or ten years past.

Very respectfully

U. S. Branch Mint
Dahlonega Ga. 2nd Feb. 1859

Sir —

I have the honor to forward report for the month of January just past.

The receipts being very light for the past month, and the hands being engaged in putting up some new gutters to the mint building, we have not had any coinage for January.

The boxes containing the dies and the adjusting scale, were received early in the last month.

I have forwarded 2 barrels of mint sweeps, the accumulations of last year, but have not yet received the bill of lading from the Railroad.

I forward these sweeps thus early that I may, if possible, get the returns from them before the close of the year.

Very respectfully

JAMES ROSS SNOWDEN,
Director of the Mint.

Jan. 15. 9.

Sir

I transmit herewith the usual monthly report from the Superintendent of the Branch mint at Dahlonega; also a statement of the expenditures at that Institution for the 4th. Quarter of the last year.

I am happy to learn from the Report of the Superintendent that there will be in all probability, a considerable increase in the operations of that branch of the Mint during the present year. For the reason stated by the Superintendent I have no doubt that the production of gold from the Georgia mines will be greatly increased.

I have the honor to be,
With great respect,
your faithful servant,

Hon. Howell Cobb.
Sec. of the Treasury
Washington City.

Sir.

I have to acknowledge the receipt of your letter of the 4th inst. with the enclosures stated, also a package containing the assay coins of your branch mint for the month of April last.

The snaps referred to in your letter were duly received and will be disposed of in a short time.

Very Respectfully,
James Ross Snowden.
Director of the Mint.

F. M. Ratton Esq.
Supt. Br. Mint.
Dahlonega,
Ga.

U. S. Branch Mint
Dahlonega Ga. 1st June 1859

Sir —

Enclosed you will please find a report of bullion received at this Branch for the month of May — We have had no coinage. A number of hands heretofore engaged in getting out gold, are now engaged in preparing for washing with the pipe & hose. A large work for that purpose is now on hand in this immediate neighborhood, — a ditch from 13 to 15 miles in length, large enough it is Estimated to run from 40 to 50 pipes, is being cut — but the heaviest part of that work is a trestle across a creek about a mile from this place 238 feet in height ~~at~~ immediately over the creek crossed. The contractors on this work are making large calculations upon the product of gold when they reach the mines with the water.

Very respectfully

[illegible] [illegible] [illegible] [

Branch Mint of the U. S.
Dahlonega Ga. 6th Oct. 1859

Sir —

In your communication of the 5th ult, asking me to present, after the 30th of that month, the estimate of appropriations which will be required for the support of this institution for the fiscal year ending June 30 - 1861" — You request me also to state "the grounds upon which the same are based"

I suppose you desire to be informed what prospect there is for basing here for the future. One year since I reported to you that a large and strong company had undertaken to introduce the hydraulic system of washing into these Mines — and that it was believed the production of gold bullion would be greatly increased thereby in this Section.

This Company has been engaged in this basing since July of last year, and although it was expected the washing would be in successful operation before this, it is not believed now that their principal ditch will be completed before July next.

The work undertaken by them has proved to be heavier than it was supposed at first to be

and a very large force has been employed upon it all this year.

In addition to this source of supply, a considerable number of persons from this section have gone to the Rocky Mountain Mines — a few have returned with some gold dust — and I think it probable that in a year from now a considerable quantity will be brought in by persons out there from this State & such as propose to go out the coming Spring.

I enclose the estimates for the year ending 30 June 1861 —.

Treasury Department

Sir

Nov 19th 1860

In sending the estimates of the Mint & Branch Mints, you have appended to that of the Superintendent of the Branch at Dahlonega a note to the effect that $2,880 estimated by the Supt to be required for wages of workmen & $1000 for incidental & contingent expenses will not be required "the unexpended balance of former appropriations being sufficient."

The Register reports that there is no balance to the credit of wages of workmen at that branch — such wages for the current year being, from want of such balance, paid out of the appropriation for contingent & incidental expenses, which has reduced that appropriation at this time to the sum of $2298.66 without including profits available — the three quarters of the current fiscal year being to be provided for.

I beg leave therefore to request your explanation of your note as above stated at your earliest convenience.

Very respectfully
Your obed Sir

J. R. Snowden Esq
Director of the Mint
Phila

Director of the Mint

Geo Kellogg Esq.
Supt. Br. Mint.
Dahlonega,
Ga.

Mint of the United States.
Philadelphia Nov. 20. 1860.

Sir.

I have received your letter of yesterday in relation to the estimates of the Branch Mint at Dahlonega.

By reference to your letter of the 28th of October 1859, it will be seen that the following balances, were reported as standing upon the books of the Treasury, at that time, to the credit of the appropriations for the above branch Mint:

For Wages of Workmen		$2,373.53
Balance of appropriation for Contingent Expenses	$12,060.61	
Covered into Treasury for parting charges to credit of this ap.	1,050.74	13,111.35
		$15,484.88
To which add deductions paid into Treasury Jan 21 1860 to cr. of this ap.		233.76
		$15,718.64

Against this amount there was been drawn and charged to 30th June last. — For Wages $2160
For Incidentals 460 2,620.00

Leaving on 30th June last an unexpended balance of $13,098,64, which amount I regarded, as more than sufficient, to meet the expenses for Wages and for Incidentals, during

the current and next fiscal year, and therefore modified the estimates accordingly.

I have the honor to be,
With great respect,
Your faithful servant,
James Ross Thomson.
Director of the Mint.

Hon. Howell Cobb,
Secretary of the Treasury,
Washington City.

Requisition rec'd &
forwarded to Dept,

Dec 21, 1860,

230
175
55

Treasury Department
Novr 28th 1860

Sir,

In reply to your letter of the 20th inst. I have to state that the balance at the credit of the appropriations for the Dahlonega branch Mint on the 30 June last, was for wages of workmen 213.53

& for incidental expenses 2885.11

$3098.64

The amount available under your showing is 13098.64

difference $10000

which is caused from the fact of that sum being duly reported as liable to the surplus fund, in the estimates for the fiscal year ending on the 30 June 1861 (see printed estimates page 70) & was carried there by Warrant at the close of the last fiscal year.

In view of the above I have directed the sum of $2880 to be inserted in the estimates for the next fiscal year, for wages of workmen, and $1000 for contingencies; for the Dahlonega branch.

I am very respectfully
your obest. servt

In relation to not
Rec. Draft for requisition
for last Quarter

Jan 16. 1861.

Branch Mint U.S.
Dahlonega Ga Jan 7th 1861

Dear Sir,

I address you a few lines acknowledgeing the receipt of the Dies for 1861 for this institution, & permit me in connexion to add that the Draft of $2300, on which I requested to pay Expenses of last Quarter has not been rec'd, Will you be so kind as to call the attention of the Dept to it again,

Very respectfully
Geo Kellogg
Supt

January 11, 1.

Sir

As requested in your letter of the 7th inst. received this morning. I have written to the Secretary of the Treasury, calling his attention to your requisition for the last quarter, and requesting him to cause a draft for the amount, to be sent to you as soon as convenient. The delay in sending you the amount is due to the condition of the Treasury. A similar omission to respond to requisitions upon the Department has prevailed in other branches of the public service as well as our own. Recently however, drafts due some weeks ago have been received and I suppose yours was also forwarded, but had not time to reach you at the date of your letter.

Very Respectfully,
James Rob Snowden.

Mint of the United States,

Philadelphia, Jan 19. 1861.

Sir.

I have received your letter of the 20th ult. with the enclosures stated.

I have requested the Manufacturer

Jan 21. 1.

Sir.

I have to acknowledge the receipt of your letter of the 7th inst. presenting a quarterly statement of the expenditures of your institution for the quarter ending 31st ult. Accompanying the same I found the vouchers belonging to your ordinary account for the last quarter. This I suppose was an accident as you do not refer to them in your letter, and they are usually forwarded from your branch direct to the 1st Auditor at Washington. I have given them that direction. The quarterly statement of expenditures I will forward to the Secretary of the Treasury as heretofore.

Very Respectfully,
James Ross Snowden.
Director of the Mint.

George Mellos Esq.
Supt. Br. Mint.

Mint of the United States,

Philadelphia, February 11. 1861.

To, Hon John Cadwalader.

Chairman &c. &c.

Dear Sir,

At the branch mint in Dahlonega, Georgia, there was a change in the incumbency of the Superintendent, who is also ex officio Treasurer; namely, I. M. Patton Esq. by resignation vacated his office on the 1st of October last; on which day George Kellogg Esq. entered upon the duties of Superintendent and Treasurer. There was no coinage in October and therefore no reserved pieces; ~~but~~ For November and December there are reserved pieces for Apay. This information is given in pursuance of the latter part of rule IX, in order that the ~~coinage~~ reserved pieces may be divided into separate parcels.

Very respectfully
Your obt. servant,
James Ross Snowden
Director of the Mint.

Mint of the United States,
Philadelphia March 26. 1861.

Sir.

I received by this days mail your letter of the 22nd inst. calling my attention to the affairs of the Branch Mint at Dahlonega. The only information which I have received from thence is that contained in the official reports from the Superintendent. These reports have been continued without interruption. They contain a statement of the deposits & coinage, and the general operations of the branch Mint, and embrace the month of February last. The coins for the annual assay for that month, have also been forwarded to me. In the reports and in the letters enclosing the same, the institution is, in the usual manner, referred to as a branch of the Mint of the United States.

I am not advised whether any drafts have been issued by the Department on the United States Bullion Fund at that institution. A refusal to meet a draft of this character, for a small

of the amount as might be in coin, would be conclusive evidence that the institution, although making regular reports to me, is not being lawfully conducted, and the government in that case, might with propriety withhold from it the means of support.

So long as the Branch Mint receives bullion and converts the same into coins of the United States according to law, and complies with the instructions and orders of the Department in relation to the coin and bullion in its keeping, it may be inferred that the Officers in charge of it are conducting the institution in a lawful manner.

The U. S. Bullion Fund at the Branch Mint in question, on the 30th September last, amounted to the sum of $27,950.03, which was reduced to $25,688.15 by the payment therefrom of the Ordinary Expenses of the quarter ending on the 31st December last, amounting to $2,261.88. This the Superintendent states was done on acco

of not having received a draft for the expenses of that quarter and would be replaced when the draft was received. The Superintendent made a mistake in thus using the U. S. Bullion Fund for this purpose, but it may be ascribed to his want of knowledge of mint accounts, he having occupied the position of Superintendent but for a few months and possessing but little experience in mint affairs. My attention has been called to this irregularity by reason of the accounts of the branch Mint having been referred to me by the 1st Auditor for examination and revisal.

It will be observed that all the information which I possess in the matter in question is derived from official reports to me, and the examination of the last quarterly accounts. If facts are known to the Department showing that the Branch Mint at Dahlonega does not recognize the authority of the United

State, and is not legally conducted under the authority of the same, it would be improper to withhold the issuing of the warrant asked for by the Superintendent and enclosed in my letter of the 19th inst. I gave my approval of the requisition because, so far as was officially known to me, no change had occurred in the manner of conducting its operations.

In view of the anomalous condition of affairs in the Southern States it occurs to me to suggest that the condition of the branch Mint in that part of the Union might with propriety be made the subject of an examination by a Special Agent of the Department.

I have the honor to be, Most respectfully,
Your faithful Servant,
James Ross Snowden.
Director of the Mint

Hon. S. P. Chase,
Secretary.

Your account has been
credited with proceeds
by $77

March 19, 1.

Sir,

I enclose a requisition from the Superintendent of the Branch Mint at Dahlonega, Georgia, for twenty three hundred dollars, payable out of the balances of the appr. made for the support of that institution. With this requisition I received from the Supt. the usual monthly statements and reports, and also the coins reserved for the annual assay for the month of February. It thus appears that, notwithstanding the revolutionary proceedings in the State of Georgia, the Branch Mint at Dahlonega continues to recognize itself as a branch of the Mint of the United States, and complies with the laws, and with the regulations, heretofore in force for the transaction of its business. This being the case I have deemed it proper to approve the requisition made by the Superintendent, and respectfully recommend that a draft for the amount asked for, be drawn in the appl. favor of U.S. at

Charleston S.C. has sent to the Superintendent.

I take this occasion to call your attention to my letters of the 18th. and 23d. ult°, respecting the operations of the branch mint at New Orleans. I respectfully suggest to you, whether it is not desirable that some official announcement should be made of the fact that the Coins of that institution are not the Lawful Coin of the United States; and also whether some effort should not be made to retrieve the Coining dies which were sent from Philadelphia for that branch of the Mint.

I have the honor to be,
with great respect,
Your faithful Servant,
James Roy Snowden.
Director of the Mint.

Hon. Salmon P. Chase.
Secretary of the Treasury

Mint of the United States

Sir, Philadelphia 29 Mar 1861

I return, herewith, the accounts for the 4th quarter 1860 of the Branch Mint Dahlonega, which you forwarded to me for examination. This having been completed I now endose a re-statement of these accounts, embracing a Journal, Ledger abstracts, Balance Sheet and Summary, which I believe correctly represent the condition of the establishment. In substance, the examination confirms the accuracy of the accounts, so far as the Balance Sheets are concerned; but there were errors of more or less importance to which I briefly call your attention.

On the U.S. Bullion Ac the amount paid for wages and salaries is charged. This was improper. There is no fund available for this purpose, even temporarily, except the Ordinary Fund, derived from the Appropriations of Congress.

The premium paid on silver parted is charged to Bullion Profit & Loss (the ½ p.c. account). This charge should have been to Profit & Loss. By law the ½ p.c. charges are payable specifically, and without de-

ductions, into the Treasury of the U.S. At this Mt we have a "Silver" Profit & Loss Ap to charge with sures premiums, but in the absence of silver coinage at Dahlonega, and of any realized profit on silver, the most convenient charge is to Profit & Loss. By this change of account the Balance of Bullion Profit & Loss is $11.42 ~~and~~ greater and of Profit & Loss that much less than stated at the Branch Mint.

The Unpaid Deposits of the 4th quarter are over stated $1.21 and Gold Coinage Payments understated the same amount [see abstract A.] whereby the "Unpaid Depositors" and "Gold Coinage" balances are affected in a similar degree. The Silver Bullion from the same Abstract was transferred by the superintendent as $288.76 instead of $288.74, making the only other difference in the Balance Sheet.

In the "Summary" furnished from the Branch Mint, the following errors appear. Instead of being charged with the total Gold & Silver Bullion (as well with the Treasurer as the M. & R. and Coiner) it includes only the amount with the Treasurer. In the Silver Bullion statement a credit is claimed for silver used for alloy. It appears, however, from Abstract A. that the actual silver contained in gold is

diminished, in the estimate of its amount, by the proportion left unextracted and used as alloy. Consequently the Treasurer not having been charged with such silver he is not entitled to a credit for it.

In consequence of these errors in the Summary, the Exhibit of the "Condition of the Mint" appended to it by the Superintendent is incorrect, and is in fact contradicted by the Balance Sheet presented by him, to which it should correspond.

I have modified the form of the Accounts by introducing the "Deposit Account" in use at this Mint. It is very convenient in distributing intelligibly the items embraced in the Calculation Abstract among the various accounts of Gold and Silver Bullion, Gold Coinage, Unpaid Depositors, Profit & Loss and Bullion Profit. This being correctly done it is not easy to fall into error in other particulars.

Very respectfully
James Ross Snowden.

Branch Mint
Dahlonega Ga Apr 17th 1861

Dear Sir:

Your favor of 30th ult has been rec'd Enclosing a Statement of My Quarterly Report for 4th Qr 1860 as adjusted by you, If I understand your letter of explanations the ballance sheets - make up the Accts correct - but errors in some of the accounts,

1 In the U.S. Bullion acct, The Treasury draft was rec'd a few days after my acct was rendered & the deficiency in that acct replaced, which left it as before,

2 The premium paid in Silver you say should be charged to Profit & Loss instead of to Bullion Deposit Profit & Loss, upon an examination of my Books I find that acct was opened in 1853 - & this Item has been charged to that acct all the time - which was my authority for doing so - So I have left my Entries to stand as I had them - for the present -

thinking perhaps as the acct had been rendered in this manner for several years - you might think proper to let it remain so,

3 The Error in Unpaid Depositors of 4th Quarter - I correct by Entering on My Journal Unpaid Depositors Dr To Gold Coinage &c, — 1.21

which makes it correct in next return,

4 You say in the Silver Bullion statement a credit is claimed for silver used for Alloy Of which I have no recollection - & don't find it on My Book I find Gold Bullion charged - with Copper Alloy &c, the Item though was - the parting charge in deposits containing silver to be parted for depositors - the copper alloy should have been left out & been Parting charge —

Hoping these explanations may prove satisfactory I remain very truly

Br: Mint Dahlonega 24th April 1866

Your honor Js: Pollock
Superintendent
United Stats Mint Philadelphia

Sir I allow myself the liberty to inform you that I am still jet in the Br: Mint Dahlonega and teck care, so much as circumstances admited, sence my last communication to your honor, severall Unit Stats forces have been her allways after a few weeks between, — at present a Sergeant is in Charge with a few man and what I learn the will soon ordered of again, I would say to your honor ignorant Soldiers are not particular tender in occupying such Establishment as this, — If I made somtims remarks to them in matters to take care — the tell me Uncle Sam — is rich. — It would have been better if the Mint would have been in care of an honerable carfull mann with strictly orders, but as it is, it has been tacken out my hands again & again, what I had in order had been spoilet again, and of course I had nothing to say I had to admit what ever the pleas to do, I have been trying to repair and cip dhings in order, Soldiers in Charge doing nothing as to Camp: ther, and cip stranger of. That is about all, and ther must business is about the bar=room, x-x — som have dan better and some worse, but in generall to no advandage. I will State to your honor as I am occupying a room in the Mint and have business her an account of Mining=operations, I will do like bevor and teck care of the Mint, If the Unite Stats force should be ordered of, and would beg and wish your honor for instruction In Case the Br: Mint would come in your Charge and Authority and I suppose it will be soon, for som purpose are care at least. — I would State to your honor Gold=Mining becoming more and more active som have Hardet and comens work on a large scale severall other N. Camp: have purchaset large Mining propertys so we will have her soon lifty lims in gold=Mining operations If your honor should wish to hear somtims of the progress of the Mines I will do so with great pleasur I clos my line with the wishes to be to your services.

I remain

your very respv. obedient

Mint of the United States Philadelphia
to your honor Jas: Pollock
Director

Sir your honor will excuse me to teck the liberty and make again sam further remark concerning the Unit States branch Mint in Dhalanega, I have in my last letters informt you of the circumstances concerning the Mint and have been ocupying a room ther and have don all what I have been able for the car of the buildings and contains, as for several months was nobody ther and hereafter soldiers ocupying the rooms, and is, or has been late in car of only a Sergeant a trunken most the time with a few Mann of the sam habit, his order has been to keep a gard a round the Mint and had strict orders, which he in part has don so long I had been ther, but I had a call to Chicago Ill. on Mining buzzinis and had to lief all my Dhings ther till my return, but all well under lock and ky, nobody had the kys as Sergeant Armstrong and all movable belonging to the unitstate Mint had been in the adjoining rooms, in which I put it myself to be safe, an my return all Dhings was gone what is salable all my trunks voilent broken upen staller and ruint to the amount of $1900.00 taken form me, so that I am stript of every Dhing all my wash and Chaths most valuable papers, very valuable Minerals Stones in ther naturly State a Diamand a Rubin, a Saphir a Smaragd, severall articles of gold & Silber, glases for Chemicall purposes and many other valuable Articles wich I brought from Eyrape I have made my Complain to the Headquarters Gen: Tillson, so well

as I have been informt, but nothing is don in the Matter I can hear nothing of it, it was your honor a great mistaken that ever has been any Soldier put ther to take car of such an Establishment the one ignorant and do not car what the destray, at present is only a Corporal in Charge, and a little after, soon will be nothing more left ther to take care as a pile of rock — an account the Water will soon git in the Sellar again, I was trying to keep things in order to keep the Water ~~from the~~ out the roof is partly in bad conditions, the Scalls in the Sellar are half rotten wher the Posts resting on, and the Wheels and heavy mashinerys in the upper floor; the foundation in the Sellar is all loose and decomposed and will sink and if Water com in which it does, it may happen soon, that all the Wood and fram-work give away and if them brack down, it may ruin the Whole buildings. I inform you about this circumstances so that you may know about the present condition of Matters ther is a jung Mann in the Mint at present and has his Office ther, which claim that he has Charge of the Mint and is send ther from ~~the~~ Unit State treasury, he is the Tax assesor, he says the government do not pay him any thing for this and he do not car any thing about the Mint, he is no better as the balance above namt, — I consider and should think any ohnest Citizen of the Unit States is it its naturly duty to do the best he can for Unit States property an account we are all in generall interestet in it; — I will State to you that Gold-Mining is still progresing new goldworks in large scalls

growing up, new discovers of gold Weins are continually ~~found~~ made among them I have seen very promising veins, the camp: I am engaged ~~in~~ are Chicago gentlemen which have purchased in Forsyth Co: Go: large tracts of land am Etowah River, which carry severall good goldbearing Veins, one of 8 feet wide we will use the Hydraulic prasses for hill deposit and will work the River ~~of~~ for severall Miles, and in the sam tim Wein-Mining, this Mines are only 30 Miles from Dhalonega: I clos my lines and I would beg your honor for your asistence If you would be so kind and could bring my Complain aubout my affairs to the proper Authority an account I can not help myself nobody want to interfer an account the Soldiers have it don, and in particullar that I was for the protection of the Unit states property I was not much likt on the other Seit: — The Soldiers have sold all about Dhalonega but I can get nothing If I not find freind from other quarters the loose is very hard for me you will therfor excuse my liberty ~~an alone~~ under my circumstances. I remain your most

obedient servant

Mint of the United States,

CHIEF COINER'S DEPARTMENT,

Philadelphia, Aug. 18th 1870

Hon. James Pollock

Director U.S. Mint

Sir

In conformity with your instructions I have made an examination of the pair of balances sent from the Dahlonega Branch, and now under repairs in this Department.

Many of the most important parts were lost, and have had to be renewed, and under all the difficulties presenting themselves the work (thus far) has been performed in a most skilful and thorough manner. The balance is constructed on old principles long discarded and I fear would not answer the requirements of the Asst. Treasurer's Office at Baltimore.

The beam would sustain a draft of $5000. Gold, but might owing to deficient construction give out at any moment. I would therefore recommend that it be returned in this Institution, where repairs needed from time to time may be readily had.

I understand that the Asst. Treasurer desires a balance to weigh drafts up to $10,000. gold, and at the same time delicate enough to indicate the fractional parts of a grain in weighing single pieces.

This will be almost impracticable, if not impossible to accomplish, in a single pair of balances. A balance with lenghth of beam and strenghth enough to use in weighing of drafts of say 500 ounces would from use, very soon loose the delicate sensitiveness required in weighing single pieces. It would doubtless indicate the variation of a grain or even a half grain with accuracy – but in weighing single pieces it is important that the scale should note variations as low certainly as the 1/2 of a grain. Under all the circumstances I would recommend the purchase of a large balance with say a three feet beam, and a small balance for weighing single pieces. They should be of the most approved construction, similar to those purchased under your direction and shipped to the Office of the Asst. Treasurer San Francisco some time since. The cost will be six hundred and fifty Dollars for the large, and forty five Dollars for the small balance, which was the price paid for the San Francisco pair alluded to as above.

I have the honor to remain

Very Obdt. Servt.
